Description of the Prisoner Camp LEZNICA and
its Mines

SOURCE SALZBURG/WELS: A merchant, 26, from ATHENS, Greece. Worked and lived in abovementioned camp, serving there a part of his long term sentence from January 1953 until May 1953. Escaped on 30 May 1953.

DATE OF OBSERVATION: 4 January until 19 May 1953.

CORRESPONDENT'S COMMENT: Subsource reports own experiences and observations and partly what he heard from other prisoners working or living in other "buildings." Subsource himself worked in the mines.

EVALUATION COMMENT: This report contains a thorough description of the "Leznice" labor camp near HORNI SLAVKOV. A detailed sketch of subject camp was attached to this report and is available in our files. The report itself without the sketch would be useless, and the issuance of copies of this report with a sketch attached is technically impossible. It is, therefore, recommended that interested Editors contact the Czech Evaluation Desk. It is stressed here that this is not a report but merely a notice to the Editors that a detailed description of the "Leznice" camp is available in our files.

End.
