Increased Uranium Transports To USSR

SOURCE STOCKHOLM: Highly responsible source, via Polish railway men

DATE OF OBSERVATION: Recent period

* * * *

Transports of uranium ore from KRZYŻATKA and other mines in lower Silesia, close to the Czech border with Soviet Union, have increased considerably lately. Besides the daily uranium trains from KRZYŻATKA, uranium loaded trains are being attached to Soviet passenger trains, which depart each day from LEGNICA via BRZESKO.

ANAL. COMMENT: UNCONFIRMED.
