## CHILD INTERVIEW

Code Number: Ch-4 -F

### I CHARACTER DESCRIPTION

(SED) This young girl has a very good family background, is the child of decent, hardworking intellectuals. Before the Communists took over Hungary, her father was an officer in the Hungarian Air Force in the rank of a Colonel. Mother speaks extremely good English and the little girl is well brought up. She has quiet manners, is polite and quiet. However, utterly unsophisticated and still rather childish (has two brothers 22 and 23 years old and maybe this accounts for it).

She attended a formerly well known and exclusive private school in Budapest which has been "nationalized" under the Communist regime. Nevertheless it appears that the right spirit of the school still prevails. I happen to know this school very well as I have graduated from there myself.

She also had the advantage of family education. As both parents were working, an old aunt lived with them who looked after the house and mothered the little girl after school.

### II. PERSONAL INVENTORY

Age: 12 years old

Sex: Female

Religion: Roman Catholic

Lived : In Budapest in the Buda district. (This is the suburban and residential part of the city called Huvosvolgy, at the Pasaret part of same.) As far as she could remember they always lived at the same place.

Education: She attended the Susanna Lorantffy Public School which was in the neighborhood. She finished five grades and had started the sixth grade when they left Hungary. Both of her parents are living and two of her half brothers. Also her grandmother on her mother's side.

At present her family: father, mother, self, and one of the boys is living in Stamford Conn. in a very nice residential part of the town. The little girl is attending the Byrdick Junior High School in Stamford.

Both parents and brother are working here. And thus were able to furnish their apartment nicely and comfortably. They have a four room apartment and seem to do quite well.
