to enable him to complete this work.
31. 6
32. 7
33. 7
34. 5

A middle-headed man with excessive intellectual pretensions. Great pains were required to extract meaningful propositions from him, and to lead him towards the tangible, the factual and the objective. There was particular difficulty in persuading him to provide argument and logical substantiation for his general judgments on the faults of Communist economic planning etc.
