Information for researchers

Open Society Archives is an open-access facility committed to making materials available to users on equal terms of access.

**On-site reference services** are provided in the Research Room, every work-day from 9:30 a.m. to 4:30 p.m. Every researcher must obtain a researcher identification card at the OSA Reception Desk which is valid for two years. Research status is available to anyone at least 16 years old.

The Archives provides **copying services** in the following formats: electrostatic reproductions, videotape and audiotape, and photographs.

The **OSA website** is designed to provide basic description of OSA reference services available online, and other information of interest to **off-site researchers** (including the OSA Restriction Statement, citation recommendations etc.).

**General reference or research questions** may be sent via e-mail, regular mail, fax or phone (see information on back cover). OSA staff does not perform research on behalf of researchers. However, researchers may request that copies of documents relevant to their research interest be delivered by express mail or regular mail, or by fax.

OSA offers a variety of **grants** to scholars, archivists, journalists, artists and others exploring the fields covered by OSA’s holdings.

**Research grants** are offered on a competitive basis to support scholars who wish to pursue research in OSA’s holdings. These grants provide travel to and from Budapest, a modest stipend, and accommodation in Budapest for a maximum research period of two months. The application, including a research description plan, C.V., and two letters of recommendation should be sent to the Research Grant Selection Committee, OSA. The Selection Committee normally meets four times a year in March, June, September and December.

OSA regularly offers **other grants** to scholars, artists or journalists who wish to carry out projects related to topics covered by the Archives’ programs, and exhibitions to be hosted by Galeria Centralis.
The Environment
OPEN SOCIETY ARCHIVES (OSA), established in 1995 by George Soros, is an independent international archival institution affiliated with the Central European University in Budapest, Hungary. OSA obtains, preserves and makes available to public research resources in three main areas: the history of communism and cold war, particularly in Central and Eastern Europe; human rights issues and movements with particular emphasis on the second half of the twentieth century; and the philanthropic activities of the Soros foundations network and the activity of the Central European University.

REFERENCE INFORMATION PAPERS (RIP), compiled by staff archivists, are thematic finding aids aiming to guide researchers to all the relevant archival materials at OSA that relate to a certain topic. Issues of the RIP series are published irregularly, and always reflect the status quo of the holdings. The catalogue entries indicate the exact fonds reference, date span, approximate quantity, and, occasionally, medium of the records.

Non-Discrimination Policy
The Central European University does not discriminate on the basis of – including but not limited to – race, color, national and ethnic origin, religion, gender or sexual orientation in administering its educational policies, admission policies, scholarship and loan programs, and athletic and other school-administered programs.
Publications by the RFE/RL Research Institute

Press Surveys, averaging 15 pages each, consist of original language articles or English translations of the most important articles appearing in the East European press. Such surveys were made for Bulgaria, Czechoslovakia, Hungary, Poland, and Romania.

Information Items are based on interviews made in Western Europe with visitors and refugees from Eastern Europe.

Situation Reports contain summaries of current developments in Eastern Europe. These reports were prepared by the national units twice a week.

Background Reports are special studies providing perspectives on current events and trends in the communist world. The reports were issued on a regular basis, as well as in response to sudden developments, such as government reshuffle or an unannounced meeting of communist leaders.

HU OSA 331 Audiovisual Interviews Relating to Chernobyl

- 1992, 14 videotapes, 20 hours
Publications by the RFE/RL Research Institute

Press Surveys, averaging 15 pages each, consist of original language articles or English translations of the most important articles appearing in the East European press. Such surveys were made for Bulgaria, Czechoslovakia, Hungary, Poland, and Romania.

Information Items are based on interviews made in Western Europe with visitors and refugees from Eastern Europe.

Situation Reports contain summaries of current developments in Eastern Europe. These reports were prepared by the national units twice a week.

Background Reports are special studies providing perspectives on current events and trends in the communist world. The reports were issued on a regular basis, as well as in response to sudden developments, such as government reshuffle or an unannounced meeting of communist leaders.

revised: September 2001
OPEN SOCIETY ARCHIVES (OSA), established in 1995 by George Soros, is an independent international archival institution affiliated with the Central European University in Budapest, Hungary. OSA obtains, preserves and makes available to public research resources in three main areas: the history of communism and cold war, particularly in Central and Eastern Europe; human rights issues and movements with particular emphasis on the second half of the twentieth century; and the philanthropic activities of the Soros foundations network and the activity of the Central European University.

REFERENCE INFORMATION PAPERS (RIP), compiled by staff archivists, are thematic finding aids aiming to guide researchers to all the relevant archival materials at OSA that relate to a certain topic. Issues of the RIP series are published irregularly, and always reflect the status quo of the holdings. The catalogue entries indicate the exact fonds reference, date span, approximate quantity, and, occasionally, medium of the records.

Non-Discrimination Policy
The Central European University does not discriminate on the basis of – including but not limited to – race, color, national and ethnic origin, religion, gender or sexual orientation in administering its educational policies, admission policies, scholarship and loan programs, and athletic and other school-administered programs.
Open Society Archives is an open-access facility committed to making materials available to users on equal terms of access.

**On-site reference services** are provided in the Research Room, every work-day from 9:30 a.m. to 4:30 p.m. Every researcher must obtain a researcher identification card at the OSA Reception Desk which is valid for two years. Research status is available to anyone at least 16 years old.

The Archives provides **copying services** in the following formats: electrostatic reproductions, videotape and audiotape, and photographs.

The **OSA website** is designed to provide basic description of OSA reference services available online, and other information of interest to **off-site researchers** (including the OSA Restriction Statement, citation recommendations etc.).

**General reference or research questions** may be sent via e-mail, regular mail, fax or phone (see information on back cover). OSA staff does not perform research on behalf of researchers. However, researchers may request that copies of documents relevant to their research interest be delivered by express mail or regular mail, or by fax.

OSA offers a variety of **grants** to scholars, archivists, journalists, artists and others exploring the fields covered by OSA’s holdings.

**Research grants** are offered on a competitive basis to support scholars who wish to pursue research in OSA’s holdings. These grants provide travel to and from Budapest, a modest stipend, and accommodation in Budapest for a maximum research period of two months. The application, including a research description plan, C.V., and two letters of recommendation should be sent to the Research Grant Selection Committee, OSA. The Selection Committee normally meets four times a year in March, June, September and December.

OSA regularly offers **other grants** to scholars, artists or journalists who wish to carry out projects related to topics covered by the Archives’ programs, and exhibitions to be hosted by Galeria Centralis.
